

Magnetec Inspection, Inc.

Thank you for visiting our site.
As a Customer service based business,
we want to give you the opportunity
to stay in touch with our company.

The emphasis of our site is on Eddy Current Inspection techniques on process equipment. This topic is of prime interest to our clients. If you are not familiar with our company and your first learning about us online; we would be pleased for you to contact us . Let us know what your needs and questions are. We will be more than happy to reply.

IN SUMMARY:

Our company and personnel have 22 years in the Eddy Current business, providing outstanding inspection services to the Petrochemical, Chemical, Power Production and Automotive industries; with many Specialty clients.

Our customers particularly value Magnetec's knowledge of the Inspection Process, Materials, Equipment specifics and Professionalism. Our business is located in Chicago and we travel in-&- out of state to customer locations.

We encourage you to contact our representatives to discuss your Application or Inspection needs.
